HAVE YOUR SAY: Godley Gardens Improvements

Option 1: Let us know your thoughts on the design ideas below and the 'Common Features' from the suggestions above. Option 1 focuses on low level play with a sundial feature and plants, boulders and grasses.

View - looking north

Informal "stepping stone" path across the area, including a felled tree trunk

Wild grasses, shrubs and boulders

Sundial

Football net to prevent balls going onto the road

Above: Bespoke stone or concrete sundial, either raised or set in the ground, with or without a gnomon (vertical element). Set in a self-binding gravel surface.

Above: Various low maintenance plants/grasses and boulders, set around the central sundial feature.
**HAVE YOUR SAY:** Godley Gardens Improvements

**Common features** All three options will have certain common features

- Buff coloured resin-bound gravel path to replace the old tarmac path, and following the line of the original path. All other types of brick paving areas are also replaced. Retain and refurbish (where necessary) the engineering brick edging.
- Natural, golden coloured self-binding gravel or (right) silver grey coloured surface to form a path through and around the central sundial and planting feature area.
- Felled tree trunk, secured in place, provide a natural play feature for all ages.
- Recycled plastic adult picnic table to match existing benches.
- Football net.

Concrete or timber “stepping stones” to form an informal route across the park.
