**Option 3:** Let us know your thoughts on the design ideas below and the ‘Common Features’ from the suggestions above. Option 3 focuses on a communal meeting area, a ground level trampoline and undulating areas.

![Diagram showing the communal meeting area, trampoline, and undulating areas.](image)

- **Informal “stepping stone” path across the area, including a felled tree trunk**
- **Trampoline inside a small mound of artificial grass**
- **Football net to prevent balls going onto the road**

**Above:** The “ecclesia” or meeting place; smooth glacial Caledonian boulders positioned in a circle, for perching on, or for play.

**View - looking north**

- **Examples of undulating artificial grass mound, that surrounds the central trampoline**

**Sea blue artificial grass safety surface**

**Above:** Examples of undulating artificial grass mound, that surrounds the central trampoline.

Common features All three options will have certain common features

Buff coloured resin-bound gravel path to replace the old tarmac path, and following the line of the original path. All other types of brick paving areas are also replaced. Retain and refurbish (where necessary) the engineering brick edging.

Natural, golden coloured self-binding gravel or (right) silvery grey coloured surface to form a path through and around the central sundial and planting feature area.

Felled tree trunk, secured in place, provide a natural play feature for all ages.

Recycled plastic adult picnic table to match existing benches.

Concrete or timber "stepping stones" to form an informal route across the park.

Football net.
