Funeral Director

Company name _____

Arrangers name (whom must sign declaration on page two) _____

Business address _____

Telephone _____

Email _____

Name of deceased: _____

Crematorium No: _____

Declaration by Funeral Director

To ensure safety and to limit the release of pollutants to the air coffins must be certified suitable for cremation in accordance with The Funeral Furnishing Manufacturers Association (FFMA) and The Coffin, Casket and Shroud Association (CCSA). Clothing must be made of natural fibres only and shoes containing PVC materials are not permitted. The coffin must not exceed 7' 3" in length, 2' 3" in width and 1' 8" in depth.

Items made from metals, glass, ceramics or electrical items are not allowed to be placed inside the coffin. The Registrar reserves the right to permit/refuse other items and the funeral arranger is requested to advise him/her in good time before the funeral service. Removable prostheses or casts of plaster or other materials must be removed. Floral tributes (other than a handful of fresh cut flowers) will not be cremated with the coffin.

Early morning service times allow for 20 minutes for the service. Services held after 10am allow for 30 minutes of service time. Should extra time be required an additional time may be taken (at the point of booking) allowing for up to 45 minutes of additional time. An extra fee is payable. Services that overrun due to avoidable delays or content of the service may incur an additional charge. In this case the funeral director will be notified by the crematorium staff.

Funeral directors and arrangers are required to familiarise themselves with the current regulations regarding cremations and the crematorium and ensure that families are aware of and comply with the above.

I have read and understood the above and sign on behalf of the funeral director/company.

Signed _____ Date _____

Information for the Applicant for Cremation

Recycling of metals following cremation. We take part in the national scheme supported by the Institute of Cemetery and Crematorium Management (ICCM) whereby all metals remaining following a cremation are sent for recycling. This reduces the impact on the environment and we receive a share of any profits which are passed onto bereavement related charities. If you prefer you can dispose of any metals yourself. Please tick here and if any metals are recovered they will be returned to you with the cremated remains. Please inform the funeral arranger of your decision.

Floral tributes are cleared from the floral terrace five working days after the cremation service.

To reduce the impact on the environment and in accordance with the charter for the bereaved the cremation will be carried out within 72 hours of the funeral service.

DATA PROTECTION ACT. We will not share your information but would like to send you information about the memorial options available at Putney Vale. This information will be sent to you within two weeks of the cremation service. Should you NOT wish to receive memorial information please tick here
