

# King George's Park Junior and Toddler Playground Improvements

## Final Design

Wandsworth Council are pleased to share with you the final design for the £167,243 King George's Park Junior and Toddler Playground improvements, the council having invested over £1m in play spaces across Wandsworth over the last few years. Funds for this project have been allocated via the S106 scheme. The S106 scheme pays for new and improved community facilities using funding collected from private development projects in the surrounding area.

A big thank you to everyone who contributed to the Playground Improvements Consultation held in spring 2021. There were 250 responses to the online survey, with over 91% of respondents living locally to the park.

The results of this consultation reflect how highly valued the playground is and that it is a very well used play space, vital to the local community.

Option 3 came out as the preferred option and this option forms the basis of the final design with some small alterations based on your suggestions.

These include:

- Monkey bars added to the Lycee Climbing Frame
- A second seesaw
- An inclusive mirage seat on the junior swings
- An additional picnic table to provide more seating for adults

Please also note that due to planning restrictions the roof in the original design has been removed from the Lycee Climbing Frame to keep the unit under 4m high.

Works are scheduled to begin on the **week commencing 1 November 2021** and are expected to **last for about 7 weeks** (weather depending).

**The playground will be closed for the duration of these works.** We apologise for any inconvenience. Please see the map opposite for locations of alternative playgrounds.

If you have any questions please email [parks@enablelc.org](mailto:parks@enablelc.org) or call 020 3959 0060.

### Alternative playgrounds in the Wandsworth area
